

July 18, 2011

Dear Member of the Medication History Planning Group,

Thank you for agreeing to serve on the HIP TN Medication History Planning Group. We are very grateful for your willingness to lend your expertise, time, and opinion to this very important project. The Planning Group will provide ongoing support and guidance to us while we explore how best to deliver comprehensive, accurate, current, and usable medication history to the point of care. I would like to personally welcome you to this Group, and I look forward to seeing you at our first kick off meeting in a few weeks.

HIP TN's vision is to outline recommendations for a medication history service to be delivered through health information exchange. In order to develop a service that would meet the needs of, and seamlessly integrate into, a provider's workflow, it is very important to engage and understand the perspective of the provider community throughout our research. By helping us develop our provider engagement strategy, the Planning Group will help keep us grounded in the realities of providing health care while also pointing us to the most tangible opportunities to improve care and outcomes through effective, universal medication management.

Your participation in this Group lends great credibility to our efforts and ultimate recommendations. Thank you again for your service, and I look forward to seeing you soon.

Best regards,

Keith Cox, CEO  
HIP TN
